ABOUT ME

Barcelona-based Customer Experience Data and BI Manager with 10+ years of experience delivering enterprise analytics, digital transformation, and customer journey optimization programs across the airline, ecommerce, and consulting industries. Proven track record leading cross-functional stakeholders, translating business strategy into scalable BI solutions, and driving measurable improvements in customer experience, operational efficiency, and commercial performance.

EXPERIENCE

COGNIZANT | CONSULTING MANAGER

Barcelona, Spain | June 2022 - Present

CLIENTS: Lufthansa Group (Airlines) | Qatar Airways (Cargo)

- Led customer experience and BI transformation initiatives for global airlines, aligning analytics strategy with commercial, digital, and operational objectives.
- Managed cross-functional stakeholder engagement across business, product, engineering, and analytics teams to deliver enterprise-level dashboarding and customer insight solutions.
- Translated strategic business requirements into actionable delivery roadmaps, JIRA epics, and user stories, accelerating analytics delivery cycles across international teams.
- Delivered executive-ready performance dashboards and CX insights supporting data-driven prioritization and operational efficiency improvements with the help of AI tools.

PERFICIENT US | LEAD BUSINESS CONSULTANT

Chennai, India | Feb 2022 – Nov 2022

CLIENTS: OMRON (INDUSTRIAL AUTOMATION) | RECKITT (HEALTHCARE)

- Architected de-coupled architecture connecting multiple back-end systems into a single efficient UI, improving operational efficiency.
- Orchestrated full JIRA lifecycle (creation to delivery), resulting in successful on-time project outcomes.
- Launched targeted referral program that increased new program sign-ups by 29% within 3 months.

ABU ISSA HOLDING GROUP | SENIOR ECOMMERCE MANAGER

Doha, Qatar | Dec 2015 – Nov 2020

- Leveraged customer data and analytics to segment audiences and launch targeted offers, enhancing multichannel customer experience.
- Defined and tracked KPIs for loyalty program performance, directly measuring ROI of retention initiatives.

KEY ACHIEVEMENTS

- Led BI modernization initiatives for global airlines migrating from GCP to Azure DF with Databricks and Power BI
- Reduced BQ and data studio cost by almost 50% every month constantly
- Improved conversion rate of passengers traveling with 2+ members by almost 2%
